

Recent news from Washington, informs us, that the Utah Expedition is to be abandoned; and that the troops ordered by the War department, to that territory, will stop short and remain in Kansas. This is significant, and shows beyond question, that it is the design of the Administration by the presence of a large Military force to overawe the Free State men in that territory, and compel an unqualified submission to the Border Ruffian laws, and a pro-slavery constitution.

General Harney, it seems is relieved of the command, which we presume has been already, or soon will be conferred on Gov. Walker, who then with the sword of the nation in one hand and its purse in the other, will soon teach the inhabitants of that territory the nonsense of supposing that they have any of the rights of freemen, in organizing their own government, or enacting their own laws. This is Squatter Sovereignty with a vengeance! What is the next humbug?

"Several fat bullocks," it seems, have been served up, in the way of a barbacue, at Lexington, Ky., by "the Honorable" James B. Clay, as a token of his joy at being elected to Congress. If "the blood of bulls and of goats" could atone for the outrage committed against the freedom of the press, by this same "honorable gentleman," a few years ago, there might be more sense in his sacrificing a few of those animals.

The sending of such a character to Washington, as one of the law-makers for the nation, implies a most degraded and reckless constituency; for certainly, next to the liberty of speech, the freedom of the press is one of the dearest and most vital rights of the American People, and the "honorable" J. B. Clay, has proved himself one of its wanton and malignant enemies.

The advertisement in another column of the Excursion of Aquidneck Engine Co. No. 3, of this city reminds us of an affair of this kind does not come off every day in the year, and consequently we should advise all our friends who would like to spend one day pleasantly to join the gulfstream in this their annual merry-making. This company is one of the largest and best drilled fire companies in the State, and it consists almost without exception of our most enterprising and substantial young men. It is an honor to Old Newport.—Remember, tickets only 50 cents for the excursion.

Friday was decidedly a rainy day, and the gusts of wind and torrents of water that poured from the leaden sky gave indications that the Equinoctial storm might soon be expected. A rainy day in August, however, is quite a luxury to the guests at our hotels and cottages; for the long unanswered letters are replied to, and half finished lamp mats, and whole piles of neglected crotchet work are completed. The closed pianos in ladies parlors are also again opened, and an air of sociability reigns in drawing-room and hall.

PRESIDENT BUCHANAN.—A Washington correspondent of the Charleston Mercury thus describes the personal appearance of Mr. Buchanan, formerly at present:—"I remember the appearance of Mr. Buchanan in the olden times, when Jackson was president, when he was round, firm, strong, and energetic in appearance, and quick in motion. He is now quiet in his movements, gentle in his manner, and seemingly conscious of the necessity of constant care of himself, as well as of anything else. His features are larger, and his skin has that soft, white appearance, which we only see in elderly persons of temperate life and abstinence from outdoor exposure. The pictures represent him as having a crooked neck; but this proceeds only from a difference in the foci of his eyes, which he ought to have had remedied by the optician in early life. The eye of lesser power he advances toward the object he looks upon, and of course depresses the opposite side of the head. I often pass him in the evening hours within or near the presidential gardens. His honors rest so easily upon him that those who talk with him, like himself, forget that he is president, and think only of the urbane gentleman."—*Com. Advertiser.*

DELAWARE PEACH CROP.—We learn from peach growers that in various orchards the yield will average about a third or half a crop. This, they say, is preferable, as a limited quantity at large prices is better for them than large quantities at limited prices. The orchards of Messrs. Appleton, More, and others, of Appoquinimink Creek, the greatest peach growing districts in the State, will yield something over half a crop, in the neighborhood of Delaware City the crop, it is said, will be a failure, as is unavoidably the case when they have long been cultivated in the same place. More than any other fruit, they require new soil, the old apparently acting as a poison, by producing the yellows, &c. The steamer *Baldwin* will, no doubt, do a heavy business in freighting peaches the present season.—*Syracuse (Del.) Times.*

BREADSTUFFS AND GRAIN TUMBING.—We see that in the great wheat, corn and oat growing districts of Indiana, where the wheat is over and the granaries filling with the grain, a general decline in all kinds of grain is taking place. The price of prime wheat at ninety-five cents, and flour at \$5.50 and \$6.00. There is a good time coming for the consumers.—*Gleaner & Planter, Aug. 24.*

LOCAL NEWS.

THE LAST BALL OF THE SEASON.

FILLMORE DINING HALL CROWDED.

The Grand closing Ball of the season was given at the Fillmore House on Thursday evening the 27th. By Eleven o'clock the Hall, and in fact the whole house was crowded with one of the grandest displays of American beauty and fashion that we have ever witnessed. The Hall was tastefully decorated, the music by the German society as usual excellent, and the supper and drinkables were calculated to gratify the most epicurean taste. Among the most distinguished and conspicuous ladies we noticed the following:—

Mrs. Mesier, New York, dressed in a costly black moire antique, embroidered in jet and velvet, lately imported from Paris, coiffure scarlet flowers, diamonds and black lace, exceedingly admired.

Mrs. Hutchins, Baltimore, white brocade, flounced silk, head dress, scarlet feathers, tipped with gold, set of diamonds, could not be excelled.

Miss Berry, New York, lately returned from Europe, a charming person, and a handsome toilette, altogether a beautiful girl.

Mrs. Alhambra, and daughter, of Washington, the latter quietly attired in a white dress, one of the belles of the evening.

Miss Chase, Boston, white tulle dress over white satin, spotted with pink ribbon roses, a graceful dancer.

Miss Helen Chase, her sister, in white crape dress, with flounces, edged with pink ribbon, very pretty.

Miss Ellen Russell, New York, one of the belles of the evening, beautifully attired in a white lace dress, corn colored silk flounces, edged with black cord, attracted great attention.

Miss G. Jones, New York, simple white tulle dress, graceful and pretty.

Mrs. Langdon, New York, white dotted mull, trimmed with pink.

Madame de la Grange, magnificently dressed in point lace, white silk, looped up with bouquets of pink flowers, affable and charming.

Mrs. Burena, N. Y. white Grenadine dress coiffure white flowers and diamonds.

Miss Bell, N. Y. an heiress, handsome dress, much admired.

Miss Hoffman, N. Y. dress white and pink plaid silk, very neat.

Mrs. Moses Taylor, N. Y. elegantly dressed.

Miss Kelsey, Long Island, neatly attired in white tulle dress with garlands of red ribbons.

Mrs. Mintum, N. Y. white tarlatan, trimmed with scarlet mull, much admired.

Mrs. Eugene Thorn, pink brocade, flounced with point lace and diamonds, graceful, elegant, and attracted as usual, a crowd of admirers.

The two Misses Hutton, N. Y. dotted mull, simple and pretty, rather too many flowers for head dress.

Miss McCarty, N. Y. neatly dressed in white, a very good dancer.

Mrs. Chadwick, dress white satin, trimmed with antique lace, pink silk sash, Queen like, very handsome.

Mrs. Higgins, N. Y. white dress puffed, trimmed with white lace and pink flowers, elegant diamonds, as usual a recheire toilette, a graceful dancer, had a perfect crowd of admirers.

Mrs. W. Jones, N. Y. black lace dress, with violets, a star of beautiful diamonds.

Mrs. Stephen Brush, New York, pink dress, with brocade oak flounces, looped with point lace and diamonds, a beautiful toilet and exceedingly admired.

Mrs. Walden Pell, New York, the lady patroness of the Fillmore House, dressed in costly pink silk, edged with point lace, flower head dress.

Mrs. Deacon, Boston, dressed in blue brocade, and diamonds, whose society is always sought after, altogether a charming person.

Mrs. Tennant, Philadelphia, elegant pink crape dress, and flowers of point lace, coiffure of pink flowers, well dressed and much admired.

Mrs. Fassitt, (sister to Mrs. T.) beautifully attired in white brocade, looked as lovely as ever.

Miss Grace Ogden, looked remarkably well, attired in a blue and white tarlatan, head dress of fruit and flowers, danced with her usual spirit.

Mrs. Kemochan, New York, simply and neatly attired in light green and white brocade, flower head dress, attracted a crowd of admirers as usual.

Miss Moser, of Savannah, white lace over white satin.

Mrs. Belden, New York, white lace dress flowers in hair.

Mrs. Post, New York, straw colored silk dress, flounced with black lace, head dress flowers with diamonds.

Mrs. Ripley, New York, white lace dress trimmed with red ribbons.

Miss Pringle, Charleston, S. C. blue Gaze dress, crisscrossed with Garland of flowers.

Miss Winthrop, N. Y. white dress, green shawl, and blue ribbon head dress and diamonds.

Misses Willets, N. Y. pink gaze dress, flounced with silk ribbons, flower head dress.

Miss G. Berryman, N. Y. dressed in white tulle (trimmed with green leaves.

Mrs. Hutton, Paris, dressed in yellow and black lace, with purple flowers and diamonds, very majestic and beautiful.

The Misses Gibbs, N. Y. very modest, refined and dressed in excellent style.

The above is our entire list of ladies. If our time had been less limited, we should undoubtedly have procured many more additions to it. We understand that much of the credit of this splendid entertainment is due to the exertions of Mr. T. T. Hutchins of Baltimore, and Mr. Chadwick of New York, two of the Directors, who with the assistance of Mr. Hazard the proprietor and gentlemanly host of the house, almost entirely arranged the preliminaries.

This ball will long be looked back to as the crowning feat of a short but unusually brilliant season.

GENERAL NEWS.

Few will hear without regret the news of the failure of the Atlantic Telegraph Cable. But we could not expect a miracle to be displayed even in favor of the Telegraph.—The laws of nature, which have been so wonderfully invoked to aid in the construction of this work, will not be suspended for its completion. We learn, however, that the Directors are not discouraged, but that another attempt will be made to lay the line, perhaps even without waiting until the next summer. The expense, though it is a failure, has not been without its lesson, and from it the serious and scientific managers of the enterprise have doubtless derived suggestions such as will aid materially in the next attempt.

The fact that so many miles were laid at the great depth at which the line parted is convincing proof that the enterprise is feasible, and with the means at hand the present rebuff will only stimulate to still more strenuous exertions to secure success.—*N. Y. Times.*

THE HARVEST IN CANADA.—The accounts of the harvest, says the *Toronto Colonist*, continue to be discouraging but we are not inclined to believe that so far as the weather is concerned, any injury has been done which a few fine days will not remedy. The spring crops are generally said to be good, although we learn that on the line of the Grand Trunk, eastward there are large tracts in which the oats are laid flat, and the spring wheat looks thin and poor. In the same district there is a good deal of hay still in the field. It is a remarkable circumstance, that while in this country there is reason to believe that the wheat crop will be both in quantity and quality, under an average, in England the yield per acre is remarkably large.—*N. Y. Sun.*

SENSE OF THE NOBLE AND BEAUTIFUL.—To keep alive the sense of what is noble and beautiful, seems to require an effort. Men are so inclined to content themselves with what is commonest; the spirit and the senses so easily grow dead to the impressions of the beautiful and perfect, that every one should study, by all methods, to nourish in his mind the faculty of feeling these things. For no man can bear to be entirely deprived of such enjoyments; it is only because they are not used to taste of what is excellent, that the generality of people take delight in silly and insipid things, provided they be new. For this reason, one ought, every day, at least, to hear a little song, read a good poem, see a fine picture, and, if it were possible, to speak a few reasonable words.—*New York Sun.*

THE DISCREDITED BANKER.—D. W. Vaughan & Co. have not redeemed the bills of the Rhode Island Central Bank for several days. This bank is owned by parties in Illinois, who are represented as highly respectable and honorable men, and who came into possession of it against their own will. They have repeatedly declared their intention to carry the bank safely along. We learn that the Tiverton Bank has not redeemed its bills since the failure of Thompson. We hear nothing new of the Farmers Bank. As we have repeatedly said, none of these are Rhode Island banks, except in name. Their whole operations are abroad. Very little of their circulation is here, their bills not having been current, except those of the Rhode Island Central, when they were redeemed by D. W. Vaughan & Co.—*Providence Journal.*

The New York Times thus notices the whereabouts of several strong-minded women: Mrs. Amelia Bloomer, the well-known originator of the Bloomer costume, has taken up her abode at Council Bluffs, Iowa. Mrs. Swishelm, formerly editor of the *Pittsburgh Saturday Visitor*, is now residing at St. Cloud, Minnesota. Dr. Lydia Sawyer Henshaw, the apostle of dress reform, is building a curiosity of architecture in the shape of a "mud house," at Middle-town, New York, which is designed to solve the problem how every man can be his own land lord.

A SQUADRON AT BOSTON.—Quite a formidable array of battle ships are now lying at Boston. There are the Ohio and Vermont, ships of line, each rating eighty four guns; the Roanoke and Merrimack, steam frigates, each rating fifty-one guns; the sloop-of-war Cyane, twenty guns; and the brig Dolphin, twelve guns; making in all an armament of 294 guns. The crew of the Roanoke have subscribed nearly \$200 in aid of the "Home of the Fallen," a new institution in Boston, where incurables are kept for reformation.

SUGAR AND MOLASSES.—The decline in these staples continues. The East Boston Sugar Company have put down the price of their crushed sugars three quarters of a cent within a day or two. Sales of 800 barrels have been made at 11 1/2-20 per pound. A lot of molasses changed hands yesterday at forty-three cents a gallon, for which, a short time ago, seventy-two cents were refused.—*Boston Journal.*

Eight persons have been arrested in New York city for passing 3 or \$4,000 worth of counterfeit lives on the Lee Bank, Mass.

SOMETHING NEW EVERY WEEK.

Testimony in favor of Prof. O. J. WOOD'S Hair Restorative Voluntary Certificates, of which one will be published every week.

No. 4.

PROF. WOOD: I commenced the use of your Hair Restorative in March, A. D. 1855. At the time I commenced its use my hair was about two thirds grey or rather white. But by the application of the Restorative, as directed it has resumed its natural color, and now presents a healthy and oily appearance, and what is of more real value to me, my scalp is freed from all disease and disagreeable sensation. Very truly, your obedient servant.

ALPINE AIR BALM.

Restoring Gray Hair to Its Original Color.

WARRANTED to cure Baldness, Scurf, Dandruff, itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the hair, which passes through the hair, and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair, and keep it from falling off, composed of Oils, Alcohol and other deleterious materials, and all to no use. Hair Dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment, and he could obtain an article that would be the exact remedy. Its soothing and emollient allays all irritation of the scalp, thereby stopping that troublesome itching, it cures Dandruff and Scurf, and when the Hair has turned gray it will bring it back to its original color: it Black, Brown or Auburn. It makes the Hair soft and glossy—prevents it from falling out, and keeps it in its natural color. Each hair has a root in the skin, and is itself a hollow, gray tube, through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Air Balm will do it. It will bring the Hair to its natural color by making new the coloring matter in the roots of the hair.

It is a mistake to suppose that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Air Balm, will restore the skin and save the hair of those who have been sick with fever or any disease.

READ! READ! READ!

Ye afflicted read the following Certificate of a cure over 29 years standing:

"I, H. H. Henshaw, formerly of the Bladder and Kidneys for over twenty years. I have tried physicians in vain, and at last concluded to give myself a preparation a trial, as I had heard it highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects and feel much better than I have for twenty years previous. I have the greatest faith in its virtues and curative power, and shall do all in my power to make it known to the afflicted. Hoping this may prove advantageous to you in assisting you to introduce the medicine. I am truly yours,

PUBLICATION DAY DEFERRED.

In consequence of the exhaustion of the first edition of 10,000 copies of Marion Harland's New Book,

Moss-Side,

we shall defer the publication of the same until next week.

Nothing need be said by the Publishers to awaken an interest in a new book by this charming authoress. Forty-seven thousand copies of her "Alone" and "Hidden Path" have been sold by her American Publishers, and the demand is at present as constant and regular as ever. In Europe they have met with still greater success—no other American authoress has yet been honored by republication in the *Leipzig edition of Standard American Authors*. Those who have read the advance sheets of "Moss-Side" unite in the opinion that it is superior to either of Marion Harland's former productions in interest, style and popular tact; it is full of incident of an exciting nature, while the plot is better and more systematically arranged. One neat 12-mo vol. \$1.25. Orders should be addressed to

AMERICAN AND FOREIGN OFFICE.
R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1857.)
NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Carries out Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but the only one that has secured the patentability of inventions, unassured by if not immeasurably superior to any which can be offered there elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the chances for securing patents so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patent granted in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved.

TESTIMONIALS.
During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assisting inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents
From the Commissioner of Patents.
August 17th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

LOTTERIES.
LOTTERIES.—The well known Maryland Consolidated Lotteries, of which R. F. and Co. are the managers, are chartered by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend the same, and to see that everything connected with them is done in an entirely honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that State. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes. Hand. The prices of tickets vary from \$1.00 to \$20.00. No tickets however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertiary combination. Prizes vary in amount from \$20 to 100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address
R. F. and Co.,
No. 33 Fayette St., or Box No. 40, Baltimore, Maryland.

LOTTERIES.—The Drawings of the Maryland Lotteries are published by the State Commissioner in the following Papers, viz. Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union of Washington, D. C.

LOTTERIES.—The Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the Lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from \$10 to \$50,000; every prize being drawn and result of drawing forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans Daily, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Day Book. Write your address plainly, and direct
S. SWAN & CO., ATLANTA GEORGIA.
Prizes paid in full—no percentage deducted from prizes as in other lotteries. All communications strictly confidential.

PATENT GAS HEATING
—AND—
GAS COOKING STOVES.

THE only true principle whereby all unpleasant and injurious odors are avoided. This apparatus is warranted to cook the food for a family at one quarter part the cost of doing the same by any other gas stove ever offered to the public.

Secured by 5 American, 1 English and 1 French letters patent. Invented and patented by
W. F. SHAW.

The First Premium and ONLY GOLD MEDAL ever awarded on GAS STOVES by the Massachusetts Charitable Mechanic Association, was awarded to W. F. SHAW, who has also received a medal from the American Institute, N. Y.

These are the only desirable inventions for cooking or heating by gas ever offered to the public, and are the results of upwards of seven years' experience and experience of the inventor and patentee.

W. F. Shaw's Patent Gas Stove Lamp, or Gas Heater, for boiling small quantities of water by being placed over any gas burner.

The undersigned having received the Agency for the sale of the above Stoves, offers them to the public as the very best article yet manufactured for cooking or heating by gas. They are economical and free from odor of any kind in operation, bake bread and meats superior to coal ovens, and should have a place in every household.

Satisfactory references from reliable parties using them in this city, can be had upon application at my office, where the public are invited to call and examine the articles.

THE GREATEST WONDER OF THE AGE.
A REMEDY WHICH CURES IN FIVE MINUTES.—**M. LEROUX'S** French Cholera Colic Bitters. This truly wonderful scientific discovery, recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of its efficacy, is that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent.; in consideration of which, the inventor was presented with a gold medal, bearing the inscription "M. LEROUX, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This valuable preparation is also a remedy for indigestion, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them.

INDIAN RESTORATIVE BITTERS.
A GREAT REMEDY FOR
FEVERS, DYSPEPSIA, INDIGESTION, BOWEL COMPLAINTS, PAIN IN THE STOMACH, COSTIVENESS, JAUNDICE, LIVER COMPLAINT AND ALL BILIOUS AFFECTIONS.

This MEDICINE, by the uniform testimony of a great number of intelligent and perfectly credible certificates, is proved to be the BEST CATHARTIC that has yet been introduced to the public. It is active and powerful, but easy in its operation—a full dose operating in three or four hours, usually without any pain, and unlike other cathartics, it does not leave the bowels in a costive state.

Many persons suffer from JAUNDICE—many have an excess of BILIOUS ACTION in the SPLEEN or LIVER, and this causes a great deal of suffering. For all this class of diseases this is a Sovereign Remedy. Press Forward Your Claims.
ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make one hundred and sixty acres!

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Children are entitled to the Bounty.

We are prepared to promptly present all claims for Land, and will supply Justices of the Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and all others, with the necessary instructions and blank forms, free of cost, on application, by mail, or otherwise.

When decided, we will send the warrant at the market price, and remit a check for proceeds.
